Never Worked in a Restaurant? No problem.

Some of our most successful operators have come in to the Sunny Street Café franchise system with little or no restaurant experience. After completing a top to bottom training program, from washing dishes to financial management, you are set up for success.

We guide you through step by step, beginning with site selection, build out and design, management and staff training, local store marketing and ongoing operational support.

And our menu is the best... delicious and simple! We serve breakfast and lunch, focusing on fresh ingredients served hot and fast!

We're also expanding into markets across the country and actively seeking franchisees that fit our system.

Carolyn's Place

Sunny Street Café is as much about people as it is about great food. We want guests to feel important when they walk through the door. We hire employees that are friendly and love what they do. This emphasis on people first extends out into your community.

Sunny Street Café becomes a part of the neighborhood. Our marketing efforts focus on community involvement, by sponsoring local sports teams, fundraising for civic organizations, or hosting early morning Bible studies. The members of the community begin to identify your store not only as a Sunny Street Café, but as "Carolyn's Place"; the owner or General Manager they come to see who always asks about their week and knows their favorite meal.
